

INTERIM SUPPORT

National Public Accounting Firm

ENGAGEMENT OVERVIEW

Following the go-live of their Costpoint implementation, our client encountered several post-deployment challenges that impacted operational efficiency. As they worked to resolve implementation issues and bring internal teams up to speed on the new system, Alliance was engaged to provide critical interim support. We stepped in to bolster both the Markets Finance (Program Finance) and Accounts Payable functions, ensuring continuity of operations and enabling our client's staff to focus on stabilization and training efforts.

“Alliance jumped in exactly when we needed them. Their team provided essential support across Program Finance and AP, allowing our internal staff to focus on stabilizing the system and getting up to speed. They were a true extension of our team during a critical time.

ALLIANCE SOLUTION

To support a post-implementation stabilization, Alliance delivered:

01

Specialized Talent Sourcing

Identified and placed eight highly qualified, Costpoint-experienced professionals within weeks.

02

Targeted Functional Support

Augmented both the Markets Finance and Accounts Payable teams to address urgent bandwidth gaps.

03

Strategic Alignment

Engaged with hiring managers to understand role-specific needs, coordinate interviews, and secure talent.

04

Knowledge Transfer & Execution

Deployed professionals capable of executing key tasks and sharing Costpoint expertise with client's internal team.

CLIENT OUTCOMES

- Accelerated resolution of operational bottlenecks post-implementation
- Increased team productivity and ensured continuity of critical finance functions
- Enabled client to stabilize their Costpoint rollout and maintain day-to-day operations
